

Dear Ballard Families-

First, thank you so much for showing your support and voting yes to the Bond Referendum that will allow us to make some major changes and improvements to the middle school.

Second, and the purpose of this communication, I wanted to inform you that work will begin during spring break. You will notice and need to be aware of changes that will impact how you interact with the middle school during before and after school drop off and pick up times and if you are planning to visit the middle school. These changes are outlined below:

1. The main entrance to the middle school will be relocated to the back of the building in the Northwest corner of the building.
2. The student drop off and pick up in front of the building will no longer be available. All drop off and pick up needs to take place in the back of the building.
3. Please see the map below to become familiar with the new drop off and pick procedures and traffic flow that will start when we all return from spring break.

If you have any questions, please don't hesitate to reach out!

Have a wonderful spring break!

Tom Maher
Middle School Principal
