

March Board Meeting Highlights

The Board met Monday night in a hybrid in-person/virtual meeting. Due to requirements for the public hearing for the certified budget for next year, a couple of members were at our normal high school location. Others participated via Zoom, a video conferencing platform. During closure future meetings will be held exclusively via Zoom.

Given that the Board met last week to address the COVID-19 closure, our agenda was limited to business and construction matters. This will largely be the case going forward, along with providing policy and guidance related to COVID-19 matters.

Thank you to all the staff, students, parents, and community members for the sacrifices you will make in the weeks ahead. Above all, we want to convey concern, support, and empathy for all of our community impacted by this health and economic crisis. To the extent possible, we will do all we can as a district to help in this time of need.
