

KELLEY ELEMENTARY CENTER

The '58-59 school year is the second year that the Kelley School has operated with the kindergarten through sixth grade. A total of one hundred forty-two students were enrolled. Mr. Landsverk and his staff in this elementary center have enriched the elementary program by offering a more complete physical education and music program. An excellent grade operetta was staged in April. Band lessons were given each week. The combination kindergarten and first grade was divided this year after the opening of school which helped instruction in both rooms. The Ballard District sports have been enjoyed by all. Kelley won the Ballard touch football championship last fall. The spacious school grounds along with the improvements in hallways, toilets, and room floors makes Kelley a fine attendance center.
