

# SLATER ELEMENTARY CENTER

The Slater Elementary School had a total of two hundred sixty students enrolled the '58-'59 school year. The Slater plant was remodeled to accommodate the elementary grades. Mr. Petersen, Principal, and capable faculty were responsible for the rich grade school program offered this year. Vocal music and organized physical education were taught each day using the new music room and gymnasium throughout the school day. Instrumental music lessons were taught two days each week. A successful operetta was staged. Intramural district sports were a highlight in the Slater School and large numbers participated this year. They won the boys' and girls' basketball and baseball championships.
