**FOSS Science Kit Request Form**

**Parent name:_____**

For your planning purposes:

Each grade level at Ballard teaches 2-3 FOSS modules each year.

While the grade ranges are a "best fit," you may choose kits at a grade range one above or below your child's age.

In addition, you may group your kids together for science instruction. For example, if you want your 1st and 3rd grader to study science together, you may choose from the FOSS kits at 1-2 and/or 3-4.

Only one FOSS kit may be checked out at a time. Your HSAP teacher will bring you new kits as you request them.

You will be expected to return all nonconsumable supplies. Many of the kits come with things that you have in your kitchen: plastic cups, paper plates, toothpicks, straws. Please plan to return anything that could be reused, even if it would normally be something you would throw away!

The teacher's manuals for all FOSS kits will be housed in the Home School Library for your reference. Copies of necessary information will be sent with your kit.

Please number the kits that you would like to use in the order you would like to receive them

| **Grade** | **FOSS Kit** | **Order you would like it in.** |
