Meet Marta from Italy

Gender: Female
Age (at arrival): 16 years
Program length: Year

Marta's teachers and family say that she is an upbeat, outgoing, curious young woman. She loves to make new friends and explore new cultures. She's even stayed a few times for shorter international studies in other countries; she can't wait to add the U.S. to that list! Her favorite hobbies are synchronized swimming, which she practices three times a week, and clarinet. In her free time, she likes to just hang out with her friends or family, all of whom she's very close with, even her brother!
