

6th Grade Survival

2022-2023

Welcome to Ballard Middle School

Organization

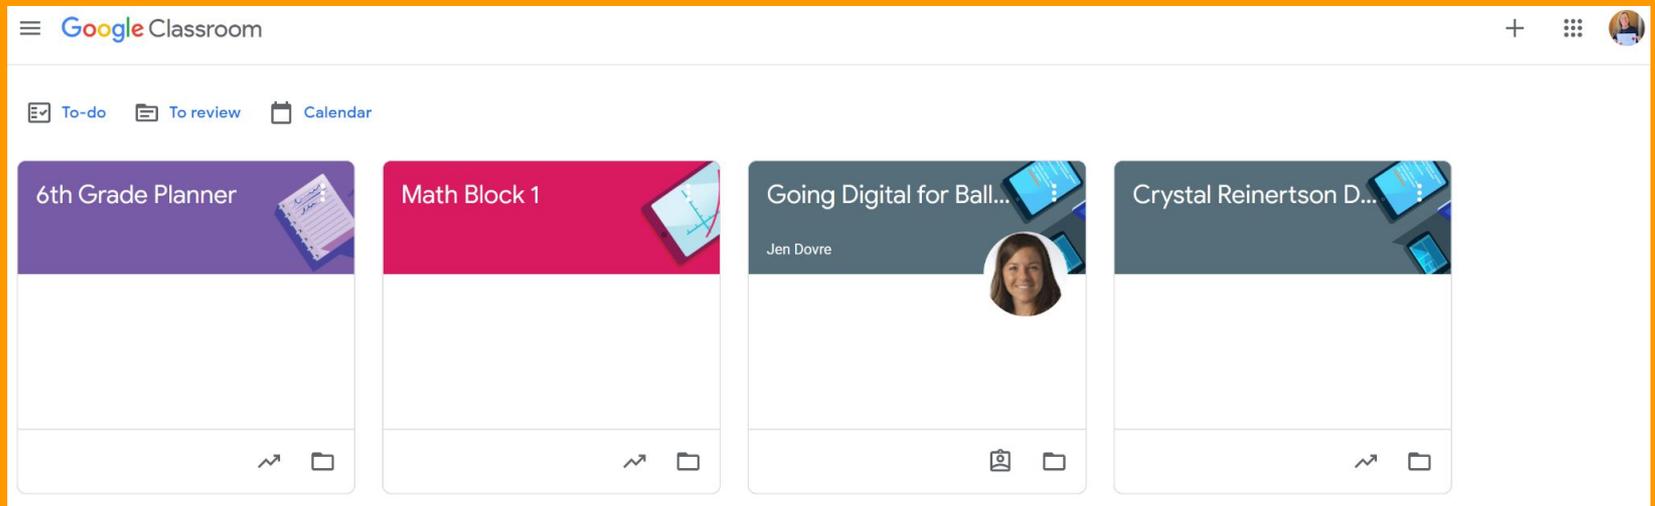

Where do I find what my child needs to get done?

How do I help them to be organized and eventually do self monitoring of their own learning/managing of what they have to get done?

- Google classroom
- Student Planner
- Daily/nightly routines
- Regular check - ins/monitoring

Organization

Your child will click on the Google Classroom ICON from the 9 dots in the corner of their screen for the classroom choices.

How to check assignments from Classroom

The screenshot displays the Google Classroom interface. At the top left, the Google Classroom logo is visible. Below the logo, there are three navigation tabs: 'To-do', 'To review', and 'Calendar'. The 'Calendar' tab is highlighted with a yellow circle. Below the navigation tabs, there are four assignment cards. The first card is titled 'Math Block 1' and is due today, featuring an 'Introduce yourself activity'. The second card is titled 'Going Digital for Ball...' by Jen Dove, also due today. The third card is titled 'Crystal Reinertson D...' and is due today, featuring a 'Science video'. The fourth card is titled '6th Grade Planner'. Each card has a small icon of a calendar or document in the bottom right corner.

Google Calendar - Assignment Check

Infinite Campus is another place to check for assignments/missing assignments.

Consistency and structure help develop lasting habits.

Regular routine for homework:

- Designated homework space and time to do it.
- Setting a schedule at home that works for you and your child.
 - ◆ Right after school, allowing down time before getting started, after practices, etc...
- Have your child show you the planner page.
- Check Infinite Campus once a week together.
 - ◆ Look for missing or late work
- Organizers for student work - most use the trapper keepers
- Homework Structure
 - ◆ Typically math practice daily less than 10 problems most of the time they have 5 or less because they have work time in the room.
 - ◆ Reading 20 min
 - Novel, science article, social studies article
- Study Habits - Locate study materials when there is a test coming up
 - ◆ Knowing when tests are to review several days before
 - ◆ Quizlet
 - ◆ Stemscope
 - ◆ Study guides

Regular preparation for next day: Students have a better start to their day when they are prepared for school.

- Make sure school bag has all folders, trapper keeper, book, chromebook ready to go.
 - Have a certain spot where their bag goes for easy access to get and go.
- Chromebook is charged

Regular Check In

Life gets busy! Slow it down and take time to check in.

Regular Check in's with your child with open ended questions.

- Ask who they sit with at lunch.
- Ask who they sit by in their classes.
- Ask about their friends, who they ride with on the bus, what they like best about school.
- Ask how they did on a test they had.
- Have them show you their google classroom and planner page.
- Have them show you how to check their grades.
 - Ask what they feel good about in a class and then what they are struggling with.

Managing Workload

How to get help to stay on top of things:

Be sure to communicate with your child's teacher with questions or concerns.

- Students have IDM time, before or after school
- Reach out to Mrs. Reinertson and Mrs. Carlson for support.
- We are here to teach our students to become independent young adults. Focusing on the "Bomber 3".
 - Responsibility, Respect, Self-control

Communication

Ways that are helpful to you as you help your middle schooler navigate through their learning:

- Infinite Campus
 - Check progress
 - Check Attendance/tardies
 - Chromebook damages
 - Lunch account
- Contact school personnel

What I love about Ballard...

★

"The support from our parents, community and school board that allow us to invest time, resources and talent into growing our students."

Katie Claeyes
Director of Teaching and Learning

★

"The people I work with make me better - both professionally and personally."

Meagan Johnston
5th Grade Teacher

★

"Our community is second to none. Always friendly and make each day exciting to come to work."

Para Educator
Ballard West Elementary

Grading Task Summary

Legend: Final Grade In-Progress Grade Future In-Progress Grade Grade Not Available Yet

Grading Task	Semesters Semester 1	Semesters Semester 2
Semester		
Semester Exam		
Semester Final		

Semester 1 Semester Detail

This Grading Task has no assignments assigned to it.

Attendance

We want our students to be in attendance to get the most out of their education. We are a mandatory reporting center which requires us to stay on top of student attendance.

- Call in to report the absence
- If your child is sick for more than 10 days in a semester we may ask for a doctor's note to help with our documentation.
- If your leaving for a vacation let us know so we can get that into the system.

Attendance Letter to Parents

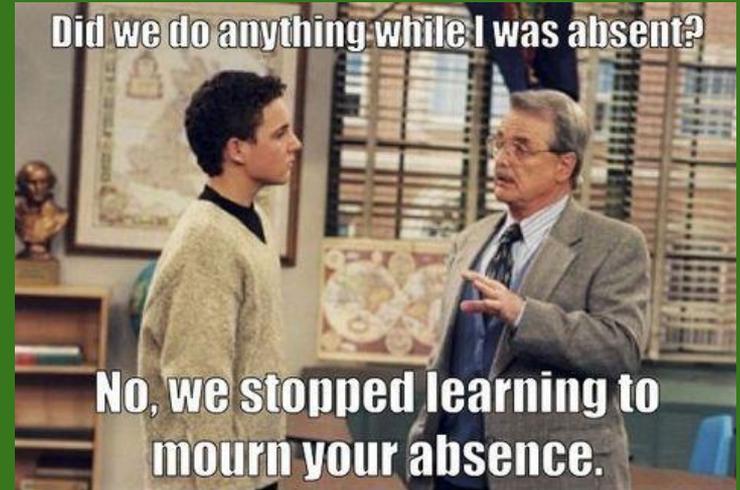

The following procedures will be used to ensure that students do not develop excessive absences:

1. **On the 5th** absence from any class per semester, an **attendance email will be sent home** to communicate to parents.
2. **On the 8th** absence from any class per semester, an **attendance email will be sent home** to communicate to parents and **meet with the student**.
3. **On the 10th** day absent from any class per semester a **letter will be sent home and a conference with student and parent/guardian will be contacted**.

In the event a student exceeds 10 absences the school may reach out to the Story County Attorney's office for assistance to help aid in the success of the student involved.

What do I need to do when I am absent?

- Check the planner on your chromebook for assignments.
- Check google classroom for each subject area to see what was covered the day/days missed.
- Email teachers any questions you have.

Cell Phones - Be Respectful

- Phones are put into the classroom pocket
- You may have your cell phone at lunch.
- Not allowed for use in the restrooms, locker rooms, during Assemblies, or any area where a reasonable expectation of privacy exists.

Response to non-compliance:

- If the phone is not in the pocket holder in the classroom, the teacher will have you turn it into the office. It will be in the office for 4 weeks from 7:55 - 3:00.

Food Service

- Breakfast and lunches are free at this point.
 - Breakfast starts at 7:30
- Extra's are a charge and can creep up rather quickly.
 - Can have the option to block if needed
- Lunch is 30 minutes for each grade but the doors to get more food will close 5 minutes before the lunch is over to allow them to clean up and get ready for the next group.
- To add money to your child's account you can have them drop it off in the office. It usually takes a day to get uploaded into the system.

Operational Basics and Developmental Success

We will work together teaching the students to become amazing young adults.

- “The Bomber 3” - Responsibility, Respect, Self-Control
- We know it takes all of us to help develop the students.
 - ◆ We are also here for their social and emotional development.

The Middle School Brain

- Middle Schoolers are in “Early Adolescence”
- Different parts of the brain are developing at different times.
- Agenda:
 - Cognitive Changes
 - Social-Emotional Changes
 - Parent Survival Tips

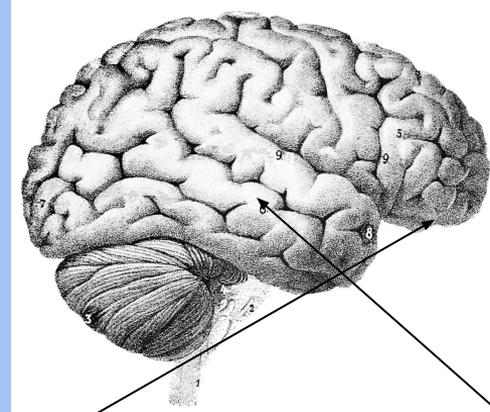

Cognitive Changes

- “Changes in thinking”
- 5 Major Changes:
 - They can think about **possibilities**
 - They can think about **abstract** concepts
 - Their metacognitive abilities improve (they can **think about thinking**)
 - They can think multi-dimensionally, playing one idea off of another
 - They can think relativistically, understanding things from **different points of views**.

Cognitive Changes

- This is why we typically find some dissonance/conflict with early adolescents.
- However, this is a perfect opportunity to start have complex discussions.

Pre-frontal cortex takes the longest to develop.

- This is the part that regulates mood, and plays a large part in planning, decision making, and controlling impulses

Until it develops, they make decisions with their amygdala

- This is the survival part of the brain that makes split second decisions based on environment.

Social-Emotional Changes

- “Changes in feelings and behaviors”
- New cognitive changes = changes in how they view the world.
- Main changes:
 - Experience a **withdraw** from parental figures and **seek other adults or friends** as role models.
 - Place greater **importance on friends** and groups
 - Seek out their **own peer groups** to associate with
 - Encounter peer pressure, the **need to conform** to the accepted ideas of the group.
 - Frequently feel: Social discomfort, Awkwardness, Loneliness, Angry, Sad, Anxious

Social-Emotional Changes

In tandem with the previous changes; there are two big concepts that frequently drive teen behavior and emotions:

The Spotlight Effect

- The idea that, in any social situation, everyone's attention focus is only on them.

The Personal Fable

- The belief that a young adolescent's feelings and thoughts are unique to them and that the people around them have never experienced the emotions they are having.

Tips for “Survival”

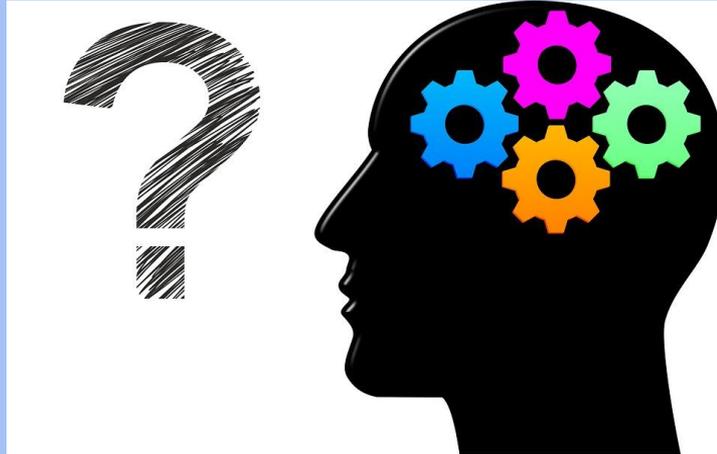

- Middle Schoolers will be inconsistent:
 - They are using their “quick decision” brain. Talking through changes and helping with decision-making skills will benefit both you and your students in the long run.
- They want to feel seen and heard:
 - Just listening is sometimes the best way to help. Resist always giving advice or opinions. Instead help them walk through what they want to do (if anything at all). Validate their feelings and new opinions.
- Be realistic
 - Honesty is the best policy. We expect it from them so we should also give it to them. Be realistic about the types of situations they may face (peer pressure, bullying, social stress etc.) and help them work through those experiences.

Tips for “Survival”

- FOMO is very *very* real.
 - FOMO = Fear of Missing Out. Middle Schoolers are peer-centered. Thinking that they are missing something essential can be triggering. This is a good opportunity to have discussions about the reality that we all can't/shouldn't live the same lives as others.
- They are going to test you and everyone around them.
 - Simply put, they are discovering themselves and learning how to manage their new thinking skills. This includes testing previously set boundaries. Before/after boundaries are broken, it's best to sit down and discuss the *why* behind the rules.
 - Remember they are now starting to think abstractly and are able to better understand why they have boundaries at home and at school.

Question & Answer

Wheels spinning? Got questions? We can help, send us an email with your questions.

Mrs. Reinertson and Mrs. Carlson
